

For Leak-Proof Transport of Meat

Wellplast® Palletainer insert

The Wellplast® palletainer insert is a fast and effective solution for preventing meat juice and water leakage during transport. Simply install it within the palletainer before the PE bag to effectively prevent liquid leakage during transport.

Made with food-safe Wellplast® Corrugated Plastic and precise folding, the insert creates a leak-proof barrier. This patented insert is designed to fit standard palletainer sizes, featuring 100 mm high edges along the long sides and 500 mm high edges along the short sides.

Characteristics:

- ✓ Leak-proof
- ✓ 100% recyclable
- ✓ Food-Grade Material
- ✓ Patented design
- ✓ Fits standard palletainer sizes
